Team Members Present: Kaitlyn Bedgood, Marie Biernacki, Sabelli, Ximena Bustos, Lauren Lee, Jaydine Stiles, Greeshma

Tasks Completed:

- team members each assigned to different tasks for minesweeper project
- decided to focus on functions before implementing UI
- task tracker and spreadsheet developed

Tasks Allocated:

- Cell Object: Greeshma
 - Mine Placement: Lauren
 - Reveal Logic: Jaydine
 - Flags + Win/Loss: Ximena
 - Main Integration Testing: Kaitlyn, Jaydine
 - System Documentation: Marie
 - Tkinter UI: Sabelli
-

Date: 9/12/2026

Time: 10:00AM-11AM

Location: Virtual

Objective: Project Status Updates, Plan Going Forward

Team Members Present: Kaitlyn Bedgood, Marie Biernacki, Ximena Bustos, Jaydine Stiles, Greeshma Kunduri

Tasks Completed:

- decided not to use Tkinter UI for project, focusing on command line interface instead

Tasks Allocated:

- Marie Biernacki:
 - Estimated hours + methodology
 - Code/Project Template
 - Meeting Updates Email (all members + TA)
 - Kaitlyn Bedgood:
 - GitHub Documentation
 - GitHub Management
 - Clean up Board function
 - All Other Members:
 - Complete assigned section in code template after it has been uploaded to github
-

Date: 9/15/2026

Time: 3:00PM-3:35PM

Location: Eaton 3001

Objective: Project Status Updates, Plan for Wrap Up

Team Members Present: Kaitlyn Bedgood, Marie Biernacki, Sabelli Antebi Delmas, Ximena Bustos, Lauren Lee, Jaydine Stiles, Greeshma Kunduri

Tasks Completed/Discussed:

- Code Templates: anyone have any trouble or blockers filling out their assigned code?
 - Sabelli & Ximena waiting for testing
 - Kaitlyn - remove her display function, cleaning up the github
 - Lauren - adding her code tonight/tomorrow will put in discord file just in case
 - Up next -> lauren and greeshma will finish their code -> move onto testing
- Testing & Documentation
 - Testing/Code Integration:
 - Jaydine & Kaitlyn
 - Add comments and attributions to code (20 points of the project)
 - System Architecture/Documentation
 - Ask members to add their hours to the spreadsheet by Friday evening
 - Will need to push the documentation as a pdf to GitHub (Marie)
- Final Submission:
 - Who would like to be in charge of submitting the final github link? (Kaitlyn?)
- Should we meet virtually to wrap up? yes! meeting at 7pm thursday
- Path Forward: Finish any remaining code by Wed -> testing by Thurs -> individuals add their comments to code and hours to excel by Fri -> finalize documentation + submit on Sat?

Tasks Allocated:

- Sabelli Antebi Delmas: adding comments/hours after testing
- Ximena Bustos: adding comments/hours after testing
- Lauren Lee: finishing mine placement + adding comments/hours after testing
- Greeshma Kunduri: finishing cell object + adding comments/hours after testing
- Jaydine Stiles: testing + adding comments/hours after testing
- Kaitlyn Bedgood: testing + adding comments/hours after testing
- Marie Biernacki: architecture documentation

any last minute issues, message Ximena github

Date: 9/17/2026

Time: 7:00PM-7:15PM

Location: Virtual

Objective: Project Wrap Up

Team Members Present: Kaitlyn Bedgood, Marie Biernacki, Sabelli Antebi Delmas, Ximena Bustos, Lauren Lee, Jaydine Stiles, Greeshma Kunduri

Tasks Completed/Discussed:

- Plan Forward:
 - Everyone needs to add their actual hours (the meetings with the TA and virtual count toward hours)
 - Comments need to be cleaned up (FIXME, DELETE LATER, TODO) etc — Kaitlyn?
 - individuals can add their own comments
 - Cross reference the documentation to the final product (function names, etc) Marie
 - Add actual hours to the documentation - Marie
 - Kaitlyn will clean up comments and add prologue comments for ease?
 - Marie will finish the documentation + push it to github?
 - Kaitlyn/Ximena (if Kaitlyn not available) will submit the github link
 - What else needed to be included?
 - The spreadsheet, meeting logs, git guide
-
